- Couldn't be better.
- As always the reception staff are the unsung heroes of the surgery. As the first point of contact they are amazing. They are all always caring and considerate, and have always done their best to help me and my family. I have the highest admiration and praise for each and every one of them. Even when I've been in so much pain that I have been rude or off hand with them they have still been polite, respectful, understanding and forgiving and never stopped helping, supporting and smiling.
- Doctor was very understanding and helpful. But she was also stern and supportive. Almost telling me off (which I needed) for feeling guilty about things that are beyond my control.
- Very helpful, caring, offered good in depth advice, took extra time to offer support above and beyond my appointment time. I feel very reassured by the nursing staff. The friendliest and most warm nurses I've been treated by. Thank you!
